“The water of the spring is most healing and most inspiring because it comes from above and falls onto the earth. The heart that, like a spring, pours out water in the form of inspiration—be it in poetry, be it in music, in whatever form—has beauty, it has a healing quality, it can take away all the worries, anxieties, difficulties, and troubles of those who come to it. Like the water of the spring, it not only inspires but it heals. True riches is the ever-increasing spring of love.” – Hazrat Pir-O-Murshid Inayat Khan

A warm welcome to our worldwide family! We’re so looking forward to creating space together to nurture ourselves for the future, taking hands with each other around the globe. Invoking Love’s Healing Heart-Spring, the Sufi Ruhaniat International extends a joyful invitation to Ruhaniat and worldwide friends on the path of awakening to Love, Harmony, and Beauty. Together we open in practice Toward the One to invoke and experience our interconnected nature through chant, body prayer, breath, zikr (‘remembrance’), meditation, contemplation, and ceremony. We reach beyond the limitations of space and time to connect with each other in unity.

“All although we seem to be in a world of song and dance, we are most concerned with peace on earth.”
~ Hazrat Murshid SAM, in a letter to Sara Morgan

Retreat Schedule
